

30 Days to Enchanting Skin & Beauty

*"Before starting Zephora's Blueprint for Beauty program, I had no daily regimen for taking care of my skin. After 4 one-on-one consultations, I walked away with a toolbox containing easy-to-implement natural treatments and insider tricks that get results. Zephora was extremely professional yet fun to work with. She took the time to create a customized program that not only fit my skin's profile but also my active lifestyle. Since finishing the program, **I'm well on my journey to healthier, more youthful, radiant skin. I'm even mixing my own potions! It was a worthwhile profound experience that I highly recommend.**"*

30 Days to Inner Goddess Awakening

*“Coming into my sessions with Zephora, I was interested in Goddess work- in “working” with Zephora, I had so much fun learning tools to embody these ideas and saw opportunities reveal themselves with ease. Zephora’s Goddess energy training helped me see opportunities that I couldn’t see before. **Now I feel like I understand who I am, I’m falling in love with who I am and live from THAT place more often.**”*

30 Days to Enchanting Skin & Beauty

*“Many of my lifestyle choices are really healthy, but there are some key areas I have neglected. **Before working with Zephora, I had acne breakouts, which were the result of stress. After following Zephora’s recommendations, I have managed my stress and seen an improvement with my skin, which helped me to believe in myself and have more confidence.** Self-care was a big important goal of mine this year, and learning how to transmute stress, and let it pass through me. I was given a new perspective. I was taught not only about ways to deal with stress in the body, but also in the mind. The technique Zephora provides is simple, yet transformed the way I process stress, which really helped my skin. Working with Zephora benefited me greatly as a busy professional, and I find her style and tone to be comforting and nurturing, as well as informed and enchanted. Enthused on our calls, and diligent with her follow up materials, it was always a pleasure working together to further my self care goals.”*
